CYLINDER HEADS
with Rob & Mike

There is a very delicate line between faith and presumption. On the surface both appear daring, courageous and impressive. Underneath, however, one is met with God's approval while the other incites His wrath and prompts his judgment. Are you waiting for God's leading today? Good for you! If the light is red or even yellow, you're wise to let Him hold you back. When it turns green, you'll know it.
